Skills

EchoShock - Next.js | TypeScript | Tailwind CSS | Node.js | PostgreSQL

Portfolio - Github Actions | Docker | AWS | Linux

BSc - Python | C++ | Machine Learning | Computer Vision | Algorithms

Languages - English (Fluent) | Hebrew (Fluent) | Arabic (Native)

Experience

EchoShock / Founder
January 2025 - PRESENT

- Launched MVP on Vercel and iterated on feedback.
- Developed with Next.js, Tailwind, Supabase.
- Built Admin Dashboard with live updates to the site.
- Locked down API routes with session & permission checks + rate limits.
- Maintained security with RLS on DB level.

Personal Portfolio

Next.js project with a functional CI/CD pipeline, using Github Actions and Docker to containerize and deploy to AWS (EC2 instance).

Education

University of Haifa / BSc Computer Science
2021 - 2024

Originally took part of the Etgar program, where I completed some courses parallel to my High-School studies

Significant Courses:

- Software Development: Team of 6, OOP, Object - Client - Server Framework, Java, mySQL, Agile Methodologies.
- Final Project: Unreal Engine 5, OOP, C++, Game Development.
- Computer Vision: Took the following courses - Computer Vision (100) Image Processing (98) Advanced Image Processing (98)
- Sublinear Algorithms (MSc level course) - 94

Community

Previously Volunteered - Tutoring at School | Sacred Heart Foundation
